

## Semi Automatic OverWrapping Machine

### CP500

### Semi-Automatic Heat Seal OverWrapper

Designed for small and medium size boxes and bundles for cosmetic, fragrance, pharmaceutical and tobacco type companies. Overwrap perfumes, cosmetics, tea, CD, DVD, BD cases and cigarette boxes in bopp film (cellophane). The device is equipped with a heating plate used for 2 sided heat seal film and a tunnel to form an envelope type seal. Spot seals are available for perfume boxes and small boxes. Also available is Easy Open tear tape and a longitudinal film slitter for the convenience of using just 1 roll of film to overwrap many different size boxes without having to keep changing film rolls.
